EXPLANATORY NOTES

Introduction

The Digest contains the latest available figures at the time of issue for a selection of monthly and quarterly economic series. Where possible, statistics are shown both in their original and seasonally adjusted form.

Adjustments to series

2. Besides being adjusted for, normal seasonal factors, some of the statistical series included in the Digest have been adjusted for the effects of calendar variations, namely, 'trading-day' effects (arising from the varying numbers of Sundays, Mondays, Tuesdays, etc. in a month) and the influence of movable holidays, such as Easter and Australia Day.

3. Most of the original and seasonally adjusted series are preliminary and subject to revision.

Related publications

4. More detailed information is available in the *Monthly Summary of Statistics, Australia* (1304.0) (\$5.00). Publications from which the series in the Digest are derived are listed on page 8.

5. Current publications produced by the ABS are listed in the *Catalogue of Publications, Australia* (1101.0). The ABS also issues, on Tuesdays and Fridays, a *Publications Advice* (1105.0) which lists publications to be released in the next few days. The Catalogue and Publications Advice are available from any ABS office.

Symbols and other usages

- p preliminary—figure or series subject to revision
n.y.a. not yet available
— break in continuity of series (where drawn between two consecutive figures in the same column)
